

Air 1 provides a clean radio station that can be listened to by the whole family. It is the only station that plays this type of music in the Phoenix area. If Air 1 were displaced by an LPFM broadcaster providing other programming there would be no guarantee of this type of music in our area. Or we would have to subscribe to some satellite radio network. The current service provided by Air 1 benefits our community by providing an alternative to the talk and rock stations that do not support Christian morals and faith. It would be a great loss.
